Finland

5. December, , 2013

Notification in accordance with Article 3 of the Convention on Environmental Impact Assessment in a Transboundary Context (Espoo Convention) for a project plan to assess an additional reactor alternative in the context of constructing a new nuclear power plant in Finland by the developer Fennovoima Oy

Dear Ms Rantakallio,

the abovementioned notification of an Environmental Impact Assessment was sent by Finland to the Federal Republic of Germany on September 27, 2013.

The German Federal State of Lower saxony wishes to participate in the Environmental Impact Assessment procedure for this project, as in the event of a serious accident the possibility of Niedersachsen also being affected cannot be excluded.

I therefore request a description of the project plan and details of its potential trans-border environmental impact, along with a translation into German of the relevant information on the project, with particular reference to transboundary environmental impact.

Yours sincerely
