CONVENTION, 1976, 
No. 144 
(ratification registered on 2 October 1978)

Direct request 2013

The Committee notes the Government's report received in August 2013, indicating that the Finnish ILO Committee met seven times in 2011, five times in 2012 and three times in the early part of 2013. The Government indicates that in 2012 the Finnish ILO Committee discussed the possibilities for ratification of the Domestic Workers Convention, 2011 (No. 189). It also discussed bringing the Convention and its accompanying Recommendation No. 201 before the Finnish Parliament, as required by the ILO Constitution. The Committee invites the Government to continue to provide information on the content and outcome of the consultations held on the matters covered by the Convention, including consultations to re-examine the prospects of ratification of unratified Conventions (Article 5(1)(c)).

Pursuant to the ILO Constitution and the aforementioned Convention, the Ministry of Employment and the Economy is assisted in ILO-related matters by the Finnish ILO Committee, whose duties are defined in the Decree pertaining to said Committee (851/1977). In its current composition, the Committee was established on 12 December 2013, for a term extending from 1 January 2014 to 31 December 2016.

The ILO Committee processes requests for opinions from the ILO and Finland’s answers to these, the periodic reports on the application of the ratified Conventions (Article 22 of the ILO Constitution), as well as reports on the unratified Conventions and recommendations to the ILO (Article 19 of the ILO Constitution). The Committee also processes the Government's answers to the ILO Secretariat’s queries related to the Labour Conference's agenda, different fields or expert meetings. The Committee also processes the ratification of ILO Conventions.

In its meetings, the Committee has also discussed the most important matters that have been addressed by the ILO Board of Directors, such as the development of the activities of the Committee of Experts on the Application of Conventions and the crisis related to the supervision of the Conventions, the renewal of the activities of the ILO Labour Conference and the Board of Directors, the EU's competence in matters related to the ILO, and topics for future Labour Conferences.
Finland has ratified the Convention on Domestic Workers and the ratification entered into force on 8 January 2016.

The Committee also approved the statement concerning the draft recommendation on transitioning the informal economy to the formal economy. The topic was on the agenda of the 2015 Labour Conference.

The Committee also consulted ILO representative David Seligson on the preparation of the summer 2016 conference topic “Decent work in global supply chains”.

The Committee also approved the statement on the assessment of the impact of the 2008 Declaration on Social Justice for a Fair Globalization.

The statement on the standard topic for the summer 2016 Labour Conference, renewing recommendation 71 on fragile states, was approved in a written procedure.

- Safety and Health in Agriculture Convention no. 184 and the related recommendation no. 192, and
- Occupational Safety and Health Convention no. 187 and the related recommendation no. 197.

Since Finland has ratified all of these Conventions, Finland only reported about the recommendations to the ILO.

In 2016, the ILO Committee has also approved Finland’s statement on outdated Conventions that should be repealed.

**Statements of the labour market organisations**

*The Central Organization of Finnish Trade Unions (SAK), The Confederation of Unions for Professional and Managerial Staff in Finland (Akava) and The Finnish Confederation of Professionals (STTK):*

We find that tripartite cooperation works well in Finland with regard to both its structure and practical cooperation. If necessary, development targets can be set to make the ILO’s activities on providing regulations for working life better known and more appreciated.

*The Confederation of Finnish Industries (EK)*

It is the EK’s opinion that Finnish tripartite cooperation in accordance with the Convention on ILO matters has been extremely successful in both the ILO Committee as well as in the Work and Advisory Board. When requesting information from the Finnish Government on matters that have been reviewed in tripartite cooperation, the Committee of Experts has specifically highlighted future discussions on the possible ratification of unratified Conventions.

EK notes that Finland has currently ratified 102 ILO Conventions and 3 Protocols. The ratification of unratified Conventions is not a topical issue in the Finnish labour market. Instead, the EK notes that Article 5 of the Convention provides the possibility of having tripartite discussion on the termination of ratified Conventions. At some point in the future, it would be beneficial for Finland to also discuss whether it has a need for every ILO Convention that is has ratified.
