**REGARDING THE PROJECT ON THE EXTENDING OF THE LIFETIME OF LOVIISA  
NUCLEAR POWER PLANT**

Ministry of Environment of the Republic of Lithuania presents its compliments to the Ministry of the Environment of Finland and is grateful for the provided answers related to the project on the extending of the lifetime of Loviisa NPP.

The answers were forwarded to the Lithuanian State Nuclear Power Safety Inspectorate. The State Nuclear Power Safety Inspectorate has assessed provided answers and considered that there is no need to continue consultations with Finland on this project.

Taking into account presented EIA documentation and additional information, the relatively large distance from the Loviisa nuclear power plant to the Republic of Lithuania, the extensive experience in developing of nuclear energy, safety improvements carried out and advanced state regulation of nuclear safety in Finland, it can be concluded that the operation of the Loviisa Nuclear Power Plant or incidents or accidents occurring there will not have a significant impact on the Republic of Lithuania and the consultations can therefore be concluded.
