

In Finland immigrants often study the Finnish language and learn about the Finnish society before entering the working life. It may take time to find work. In the Integration SIB programme we aim to find you a job faster, after just a short period of studies and training. The programme is designed for those who wish to find work quickly and to continue their studies while working.

support and training to make it quicker  
and easier to find employment.*

# IF

...you are an immigrant aged 17 to 63 years,

...you are a customer of a TE Office and have registered as an unemployed job seeker,

...you are prepared to start working after a short period of training,

...you wish to learn the Finnish language while working in the field we offer you,

...you can read and write at least in your own language.

## We may find you a job in

Logistics and warehousing and as a bus driver

Hotels, restaurants and catering

Building and construction

Recycling

Cleaning and property maintenance

Manufacturing industry

Coffee shops

## WE OFFER

### Education and training

You learn the skills you need in the job. We will take your wishes into account, but offer you work in a field where employees are needed. Education and training is designed for your needs and those of the job.

### A job

Together with employers we have found hundreds of jobs that are also suitable for those who have just started to learn the Finnish language. Companies are prepared to hire employees as long as they are sufficiently skilled and motivated.

### Support to follow your path

We advise participants of the programme in the Finnish, English, Arabic and Somali languages. The programme will give you advice on matters relating to work and study for three years, also after you have found a job.

### Language training

In the programme you will learn the Finnish language in real-life situations instead of just in a classroom. At work you may have the advantage of belonging to a working community which helps in learning the language.

### Services of the TE Office

While participating in the programme, you will still be a customer of the TE Office. The Office will find out whether you are entitled to unemployment benefits during the studies and workplace training. After the training period, you may have an opportunity to get a job for which the employer pays you the regular wages.
